Pro Series Bin Bag Clear

Pro Series is developed for daily professional use, where reliability, durability and efficiency are essential. The series combines high functionality with robust materials and contributes to consistent results day after day.

Product properties

Transparent bin bags for the collection, transport and temporary storage of general waste. The transparent material makes it possible to see the contents and can facilitate waste sorting. The bags are made from recycled LDPE plastic and are available in 125 and 160 litre sizes.

- **Transparent material**
- **Made from recycled LDPE**
- **For professional waste management**

Product use

For the collection and sorting of general waste from painting, construction work, workshops and cleaning, among other applications.

Good practice

Select a size suitable for the amount of waste and avoid overfilling. Securely close filled bags to prevent waste from falling out during handling and transport.

Please note!

Keep out of reach of children due to the risk of suffocation. The bags are not intended for contact with food or for the storage of hazardous waste. Recommended storage temperature: 5–30 °C. Store in a dry place protected from UV radiation, heat sources and sharp objects.

Supplementary Info

Empty the bag before disposal. Sort the bag as plastic waste where permitted by local waste management schemes. Sort packaging materials in accordance with local waste regulations.

Country of Origin

Poland
