Pro Series Scrubber

Pro Series is developed for daily professional use, where reliability, durability and efficiency are essential. The series combines high functionality with robust materials and contributes to consistent results day after day.

Product properties

Scrubbing brush for cleaning and preparing durable surfaces before painting. The stiff bristles loosen dirt, dust, soil and other loose contaminants. The compact size provides good control during use.

- **Effective surface cleaning**
- **Stiff bristles**
- **Good control during use**

Product use

For cleaning and preparing durable walls, floors and other suitable surfaces before further treatment.

Cleaning and Maintenance

Rinse the brush thoroughly after use and remove any dirt lodged in the bristles.

Good practice

Remove loose dust and dirt first. Then work systematically with the brush and a suitable cleaning agent.

Please note!

Test the suitability of the brush on a small, inconspicuous area when cleaning delicate surfaces.

Supplementary Info

Sort the product materials for recycling in accordance with local waste regulations.
