

Terrace Cleaner

Product properties

Effective cleaning agent for wood terraces ect. Removes discolouration, dirt, grey mould and residual old wood oil on weathered pine, spruce and pressure-treated wood.

- Very efficient for removal of discolouration and dirt

Product use

Cleaning of all types of wood, eg weather-beaten pine, spruce and pressure impregnated wood, prior to treatment with woodoil, wood protection or paint.

Substrate

Surfaces must be clean, dry, solid and suitable for treatment.

Treatment

Before further treatment, the wood must be completely dry.

Application

Mop, floor scrubber or cloth.

Always wash in the longitudinal direction of the wood.

Soak the wood surface with clean water.

Use concentrated and apply with a brush.

After soaking for approx. 10 minutes without drying, brush and rinse (possibly high pressure) with clean water until the surface is clean.

The treatment can be repeated in case of heavy discolouration.

Wood fibres are removed by grinding.

Good practice

Frequently check for overgrowth on the surfaces, and remove such currently.

Expected result

Cleaned surface ready for paint treatment.

Please note!

The product may be corrosive to aluminium and other alkaline sensitive surfaces.

Carefully cover for splashes for instance on glass and plantation.

Environmental information

Remove the cap before sorting the packaging for recycling.

Storage

Cool, frost free and tightly closed

Protection equipment

Protect skin and eyes from splashes with suitable clothing, gloves and glasses.

Technical Data

Product Type	Cleaning
pH	14
Mixing ratio	Used concentrated
Nominal spreading rate (m²/ltr.)	20
Min. working temp. during application and drying/curing	Min. +5°C
Cleaning of Tools etc.	Water
Country of Origin	Sweden
