Excellence Facade Brush

Excellence is the range for tasks where finish and precision are more important than anything else. The brushes are developed for controlled paint uptake and even release, so the surface appears smooth, uniform and without marks. Particularly suitable for sharp edges, details and work with high aesthetic requirements. Designed for professionals who do not compromise.

Product properties

Facade brush with durable bristles and ergonomic handle for a secure grip. The bristles ensure efficient application, good distribution and a fine finish. Suitable for treatment of larger uninterrupted surfaces. Can be mounted on Flügger extension pole for ergonomic, professional working posture. Stainless steel ferrule ensures maximum durability.

- **Uniform finish on large facade surfaces**
- **Even distribution without streaks**
- **High-finish facade brush for visible exterior work**

Product use

Painting of facades and woodwork. Rinse the brush in water before use and work thoroughly into the paint. Store the brush in airtight packaging when not in use and avoid storing the brush in water.

Cleaning and Maintenance

Clean brushes with water, alternatively Brush cleaner, Basic cleaner or liquid soap. For non-aqueous paints, mineral turpentine can be used instead.

Useful Information

Disposal: Remove as much paint as possible from brushes before they are disposed of as small combustible waste.

Good practice

Remove as much paint as possible from tools before cleaning. Paint and cleaning fluid must not be poured down drains, but collected and disposed of as environmental waste. Clean the paint residue from the brushes right up under the ferrule. Paint residue under the ferrule and between fibres will coagulate and result in brittle bristles. Avoid loading the brushes during drying and store the brush dry.

Please note!

Use on very rough or textured surfaces may increase wear and shorten the brush’s lifespan.

Country of Origin

Sweden

Technical Data

Shaft	Ergonomic 2-component handle
Roller size	75 mm; 100 mm; 120 mm
Metal ring	Stainless steel ferrule
