Start Series Brush Set Indoor

Start Series is the affordable solution for simple, short-term painting jobs. Suitable for jobs where functionality is more important than finish. The brushes are designed for single-use or occasional use and are an obvious choice for preparation, repairs and basic tasks.

Product properties

Brush set, indoor, with plastic handles made from 100% recycled material. Brush fibres with excellent application properties and minimal splatter. Suitable for painting jobs where basic properties are the priority.

- **Everything you need for a simple task**
- **Basic functionality without unnecessary quality**
- **Smart single-use solution for repairs and preparation**

Product use

Painting of doors, door frames, baseboards, frames, casings, furniture and fixtures. Rinse the brush in water before use and work thoroughly into the paint. Store the brush in airtight packaging when not in use and avoid storing the brush in water.

Cleaning and Maintenance

Brushes should be cleaned with water, or alternatively with brush cleaner, basic cleaner or liquid soap. For non-water-based paints, mineral spirits may be used instead.

Useful Information

Disposal: Remove as much paint as possible from brushes before they are disposed of as small, combustible waste items.

Good practice

The brushes are designed for single use, but can be cleaned and reused if maintained correctly. Remove as much paint as possible from the brush before cleaning. The brushes are designed for single use but can be cleaned and reused if properly maintained. Remove as much paint as possible from the brush before cleaning. Paint and cleaning fluids must not be poured down the drain; they must be collected and disposed of as hazardous waste. Clean the brushes thoroughly, removing all paint up to the ferrule, as paint residue under the ferrule and between the fibres can coagulate and cause the bristles to splay. Avoid placing strain on the fibres while drying, and store the brush in a dry place.

Please note!

When used on very rough or textured surfaces, this may cause increased wear and shorten the brush’s lifespan.

Country of Origin

Sweden

Technical Data

Shaft	Recycled plastic
Roller size	25 mm; 35 mm; 50 mm
