Smart Series Roller Set Medium Gable Ø38mm

Smart Series is a versatile range of painting kits for general painting tasks, where functionality and reliability are essential. The kits are suitable for both professionals and ambitious DIY users who want a good balance between quality, ease of use and price. Smart Series is the uncomplicated choice for most painting tasks.

Product properties

Flügger Smart Series Roller Set Medium Gable Ø38mm includes a paint roller, roller handle and paint tray. Medium paint roller with good paint absorption that leaves a lightly textured surface. Used on smooth or slightly rough surfaces.

- **For general painting tasks**
- **All in one set – ready to use**
- **Good balance between price, quality and flexibility**

Product use

Painting and lacquering of walls, ceilings, floors and woodwork indoors and outdoors. Can be used with water-based paints, wood protection products and oils. Brushes and paint rollers should be rinsed in water before use, and the paint should be thoroughly worked into the tool at the start of the work. Store the tools in airtight packaging during breaks and avoid storing them submerged in water.

Cleaning and Maintenance

Tools are cleaned with water, alternatively with Brush Cleaner, Basic Cleaner or liquid soap.

Useful Information

Disposal: Remove as much paint as possible from the tools before disposing of them as small combustible waste.

Good practice

Remove as much paint as possible from the tools before cleaning. Do not pour liquid paint residues or cleaning liquids into drains. Clean all parts of the set thoroughly to remove any paint residue. Avoid putting strain on rollers and other tools during drying and store the tools dry.

Country of Origin

Sweden
