Pro Series Roller Set Fine Quick

Pro Series is a professional range of painting kits, developed for the tradesperson’s daily work tasks, where consistent performance and reliable results are key. The kits are designed to cover the most common needs and ensure an efficient and streamlined workflow. The included rollers have high paint absorption with even distribution, providing a uniform finish. A reliable choice for professionals who want a complete and dependable solution – day after day.

Product properties

Flügger Pro Series Roller Set Fine Quick includes a paint roller, roller handle and paint tray. Fine paint roller with low paint absorption, leaves a smooth surface with minimal roller marks. Used on smooth surfaces for the best possible finish.

- **For daily professional painting tasks**
- **All in one set – ready for efficient work**
- **Stable quality and reliable performance for repeated use**

Product use

Painting and lacquering of furniture, cabinet doors, doors, panels, trims, reveals and interior fittings. Can be used with water-based paints and oils. Brushes and paint rollers should be rinsed in water before use, and the paint should be thoroughly worked into the tool at the start of the work. Store the tools in airtight packaging during breaks and avoid storing them submerged in water.

Cleaning and Maintenance

Tools are cleaned with water, alternatively with Brush Cleaner, Basic Cleaner or liquid soap.

Useful Information

Disposal: Remove as much paint as possible from the tools before disposing of them as small combustible waste.

Good practice

Remove as much paint as possible from the tools before cleaning. Do not pour liquid paint residues or cleaning liquids into drains. Clean all parts of the set thoroughly to remove any paint residue. Avoid putting strain on rollers and other tools during drying and store the tools dry.

Country of Origin

Sweden
