Pro Series Roller Handle Double Quick

Pro Series is a professional range developed for the craftsman’s daily painting tasks. The series is characterized by ergonomic design and high functionality, reducing strain during prolonged use. A reliable choice for professionals who expect consistent performance – day after day.

Product properties

Flügger Pro Series Roller Handle Double Quick is ergonomically designed to support a neutral wrist position and improve working comfort. The standard length provides good balance and precise control during general painting tasks. The integrated rubber insert ensures a stable, non-slip grip, improving control during application. The handle is made of galvanized steel, protecting against rust and ensuring long service life.

- **Daily professional painting tasks**
- **Ergonomic comfort and high control**
- **Non-slip grip and long service life**

Product use

Roller handle for use with Flügger Quick paint rollers. The roller handle can be attached to all Flügger extension poles.

Cleaning and Maintenance

The tool can be cleaned with water or alternatively with Brush Cleaner, Fluren 37 Basic cleaner or liquid soap.

Useful Information

Waste handling: Remove as much paint as possible before disposal. Separate metal and plastic components for recycling in accordance with local waste regulations.

Good practice

Remove as much paint as possible from the tool before cleaning. Do not dispose of liquid paint or cleaning residues in drains. Clean all parts thoroughly to remove paint residues. Avoid placing stress on rollers and other tools during drying, and store the tool in a dry place.

Country of Origin

Sweden
