

Pro Series Filler Knife Hard

The Pro Series is developed for daily professional use, where reliability, durability and efficiency are essential. The series combines high functionality with robust materials and delivers consistent results day after day.

Product properties

Filling knife with a rigid stainless steel blade for plastering, scraping and minor repair tasks. The stiff blade provides excellent control during scraping and the application of plaster compound, while the ergonomic handle ensures a secure grip.

- Rigid stainless steel blade
- Ergonomic grip
- Available in different widths

Product use

For plastering, scraping and minor repairs on walls and ceilings.

Cleaning and Maintenance

Remove as much plaster compound as possible from the tool before cleaning. Clean the tool with water and, if necessary, liquid soap. Do not pour leftover plaster compound or cleaning liquids into drains.

Good practice

Keep the blade free from dried plaster compound for optimal performance.

Please note!

Take care not to damage the substrate during scraping work.

Supplementary Info

Waste handling: Sort metal, plastic and other components for recycling according to local waste regulations.
