Pro Series Putty Knife

Pro Series is developed for daily professional use, where reliability, durability and efficiency are essential. The series combines high functionality with robust materials and contributes to consistent results day after day.

Product properties

Special putty knife with an angled stainless steel blade for precise application of sealant in hard-to-reach areas. The different blade angles make it easier to work around windows, corners, frames and edges.

- **Ideal for corners and edges**
- **Stainless steel blade**
- **Ergonomic wooden handle**

Product use

For applying and shaping sealant around windows, corners, edges and detail work.

Cleaning and Maintenance

Remove as much sealant as possible from the tool before cleaning. Clean the tool with water and, if necessary, liquid soap. Do not pour leftover sealant or cleaning liquids into drains.

Good practice

Work with small amounts of sealant at a time for maximum precision.

Please note!

Use an appropriate amount of material to minimise finishing work.

Supplementary Info

Waste handling: Sort metal, plastic and other components for recycling according to local waste regulations.

Country of Origin

Taiwan

Technical Data

Roller size	38 mm
