Pro Series Filler Knife Joint

Pro Series is developed for daily professional use, where reliability, durability and efficiency are essential. The series combines high functionality with robust materials and contributes to consistent results day after day.

Product properties

Flexible joint filling knife developed for plastering plasterboard joints and other narrow areas. The stainless steel blade enables precise application and even distribution of joint compound.

- **Suitable for joint filling**
- **Flexible stainless steel blade**
- **Ergonomic handle**

Product use

For plastering plasterboard joints and carrying out minor repairs.

Cleaning and Maintenance

Remove as much plaster compound as possible from the tool before cleaning. Clean the tool with water and, if necessary, liquid soap. Do not pour leftover plaster compound or cleaning liquids into drains.

Good practice

Allow each layer to dry properly before applying the next.

Please note!

Use a suitable plaster compound for joint reinforcement and build-up.

Supplementary Info

Waste handling: Sort metal, plastic and other components for recycling according to local waste regulations.
