Smart Series Japan Filler Knife Set

Smart Series is the versatile choice for most common tasks. The series offers a good balance between quality, functionality and price and is suitable for both professional users and DIY users.

Product properties

Japanese putty knife with a flexible steel blade for minor plastering tasks and precision work. The blade ensures even distribution of plaster compound and offers excellent control when filling small holes and surface imperfections.

- **Flexible blade with excellent control**
- **Suitable for detailed work**
- **Available in different widths**

Product use

For minor plastering repairs on walls, ceilings and woodwork.

Cleaning and Maintenance

Remove as much plaster compound as possible from the tool before cleaning. Clean the tool with water and, if necessary, liquid soap. Do not pour leftover plaster compound or cleaning liquids into drains.

Good practice

Choose a blade width that matches the size of the repair.

Please note!

Avoid bending the blade unnecessarily during use.

Supplementary Info

Waste handling: Sort metal, plastic and other components for recycling according to local waste regulations.
