Pro Series Filler Knife Wood

Pro Series is developed for daily professional use, where reliability, durability and efficiency are essential. The series combines high functionality with robust materials and contributes to consistent results day after day.

Product properties

Stainless steel filling knife with a classic wooden handle for plastering and minor repair work. The rigid blade offers excellent control when filling cracks and holes with plaster compound, while the wooden handle ensures a comfortable grip.

- **Rigid stainless steel blade**
- **Ergonomic wooden handle**
- **Suitable for repair work**

Product use

For plastering small holes, cracks and surface damage on walls and ceilings.

Cleaning and Maintenance

Remove as much plaster compound as possible from the tool before cleaning. Clean the tool with water and, if necessary, liquid soap. Do not pour leftover plaster compound or cleaning liquids into drains.

Good practice

Apply plaster compound in several thin layers when filling deeper imperfections.

Please note!

Check the blade for damage before use.

Supplementary Info

Waste handling: Sort metal, plastic and other components for recycling according to local waste regulations.
