Pro Series Sanding Board for Extension pole 140 mm x 230 mm sheets

Pro Series is developed for daily professional use, where reliability, durability and efficiency are essential. The series combines high functionality with robust materials and contributes to consistent results day after day.

Product properties

Sanding board for mounting on an extension pole when sanding walls and ceilings. The flexible joint follows the surface and provides a better working position when sanding large areas. Designed for use with 140 × 230 mm sanding sheets.

- **For large surfaces**
- **Flexible joint**
- **Fits extension poles**

Product use

For sanding walls, ceilings and other large surfaces using an extension pole.

Cleaning and Maintenance

Remove sanding dust regularly during use.

Good practice

Apply even and moderate pressure while sanding.

Please note!

Ensure that the sanding sheet is correctly attached before use.

Supplementary Info

Use suitable protective equipment and avoid inhalation of sanding dust.

Country of Origin

China
