Pro Series Sanding Board

Pro Series is developed for daily professional use, where reliability, durability and efficiency are essential. The series combines high functionality with robust materials and contributes to consistent results day after day.

Product properties

Sanding block with handle for manual sanding of walls, ceilings and other smooth surfaces. The clamping mechanism securely holds the sandpaper in place during use and ensures even pressure distribution.

- **Secure sandpaper attachment**
- **Even pressure distribution**
- **Ergonomic handle**

Product use

For manual sanding of filler, plaster, wood and painted surfaces.

Cleaning and Maintenance

Remove sanding dust regularly during use.

Good practice

Apply even and moderate pressure while sanding.

Please note!

Ensure that the sandpaper is correctly secured before use.

Supplementary Info

Use suitable protective equipment and avoid inhalation of sanding dust.

Country of Origin

Netherlands
