Pro Series Sanding Board for Extension pole 93mm rolls

Pro Series is developed for daily professional use, where reliability, durability and efficiency are essential. The series combines high functionality with robust materials and contributes to consistent results day after day.

Product properties

Sanding board for mounting on an extension pole when sanding walls and ceilings. The movable joint makes it easier to work on high and hard-to-reach surfaces. Designed for use with 93 mm sanding rolls.

- **For walls and ceilings**
- **Flexible joint**
- **Fits extension poles**

Product use

For sanding walls, ceilings and other large surfaces using an extension pole.

Cleaning and Maintenance

Remove sanding dust regularly during use.

Good practice

Apply even and moderate pressure while sanding.

Please note!

Ensure that the sanding material is correctly attached before use.

Supplementary Info

Use suitable protective equipment and avoid inhalation of sanding dust.

Country of Origin

China
