Pro Series Fiberglass Mesh

Pro Series is developed for daily professional use, where reliability, durability and efficiency are essential. The series combines high functionality with robust materials and contributes to consistent results day after day.

Product properties

Non-self-adhesive fiberglass mesh tape for reinforcing and levelling settlement and shrinkage cracks. Can also be used for repairing cracks and holes.

- **Reinforcement of cracks and repairs**
- **Suitable for both walls and ceilings**
- **Available in several widths for different applications**

Product use

For reinforcing cracks and repairs on walls and ceilings made of concrete, aerated concrete and wood-based materials suitable for the selected treatment system.

Application

Apply Flügger Adhesive H2O and position the fiberglass mesh tape over the crack or repair. Apply 2 subsequent coats of a suitable filler. Sand the surface and apply a suitable primer or base coat before further treatment.

Useful Information

Minimise material waste by estimating the required quantity in advance. Residues of adhesive or filler and cleaning liquid from the products used must not be discharged into drains. Dispose of them in accordance with local regulations. Dispose of fiberglass waste and packaging in accordance with local regulations.

Good practice

Ensure that the fiberglass mesh tape lies flat and is fully secured before applying filler. Follow the instructions for the adhesive, filler and subsequent surface treatment.

Please note!

The fiberglass mesh tape is not self-adhesive and must be installed using Flügger Adhesive H2O.

Supplementary Info

Tensile strength (N/50mm) >300

Country of Origin

China
